LIST 2411

THIS LIST COVERS STOCK OFFERED BY

CLARKE NURSERY CO.

SAN JOSE, CALIF.

SEASON 1924-1925

PLEASE NOTE

All summer quotations not accepted to date are hereby cancelled.

GRADING. Plants that are wider than they are tall are graded by width.

QUANTITIES. Five or more plants of one kind and size will be supplied at 10 rate; 50 or more at 100 rate; 500 or more at 1000 rate.

POTS. Prices on pot grown stock do not include the pots and unless otherwise instructed plants will be removed from pots before shipping. If wanted in the pots they will be charged for at cost, but can be returned if desired and credit will be given.

PACKING. Will be charged for at cost as usual. Plants will be packed to secure lowest possible freight classification consistent with the nature of goods shipped.

SHIPPING. Our responsibility ceases when goods are delivered to transportation company in good order. They travel at buyer's risk. Please state distinctly whether you wish goods shipped by freight or express and where water shipment is possible be sure to specify by water or rail as you may prefer.

NOMENCLATURE. All plant names, both botanical and common, have been revised to conform with 1923 edition of "Standardized Plant Names" if listed in that book. The only exceptions are a few uncommon items and novelties which that work does not include. This standardized nomenclature should unquestionably be followed by everyone from now on.

This list covers items of which we now have a fairly good supply unsold. Many other things can be furnished in smaller quantities and quotations will be made on request. So if you want any ornamental stock not listed here write me about it.

This list is for the trade only and all prices are strictly net.

CONIFERS

Unless otherwise noted all plants in this section will be balled at prices quoted.

	each rate	10 rate	100 rate
ABIES <i>baborensis</i> (Algerian Fir) 5½ to 6 ft.....	7.00	6.50

Named varieties budded, 1 yr.....	.60	.50	.40

Our collection is made up of the 10 best doubles and 10 best singles selected from over 200 recent varieties. These one year buds vary in height from 8 to 30 inches according to growth of variety but price is uniform regardless of size. They are mainly unbranched. Orders will be booked only for our selection of varieties, but we will be guided by your instructions as to single and double, color, number of kinds, etc.

ROSES

I think it is safe to say that I am offering the greatest assortment of novelties in this country and a very complete line of the unusual varieties as well. Roses will be offered in separate lists. Write any time for list corrected down to date. I handle both budded and own root stock and my connections with growers enable me to supply anything if it is obtainable at all.
